

LABOR DOESN'T PUT HOSPITAL PROJECTS AT RISK.

WORKING IN THE DARK DOES.

PEOPLE + PLATFORM = COMMAND CENTER

HOW SLM GIVES YOU CONTROL ON HOSPITAL PROJECTS

Live facilities leave no room for labor mistakes.

PHASE-ALIGNED STAFFING

- Crews badged, credentialed, and aligned to each shutdown window.

One missed milestone delays the next crew.

TEMP LABOR PLANNING

- Forecast and re-forecast by phase.
- Flex headcount the moment the schedule moves.

Labor overruns quietly erode margin.

COST CONTROL

- Catch OT and overruns before they escalate.
- Drill down to detail on spend and hours.

Always inspection-ready.

AUDIT-READY COMPLIANCE

- OSHA cards, credentials, and prevailing wage are tracked live

LABOR REVIEW

“

The amount of stress SLM takes off me as a superintendent working on hospital projects with a huge demand for labor is worth its weight in gold. As we all know, quality labor is a huge issue and seems to only be getting worse.

-Superintendent
